DATE: 5 July 1949

FROM: General Counsel
Approved For Release 2001/09/03 : CIA-RDP84-00709R000400080041-6

SUBJECT: JIOA

1. Captain Bosquet Wev, present Director of JIOA, is being transferred to sea duty at the end of July. Colonel Wentworth, his successor, also expects to be transferred in the near future. Probably another colonel will succeed him. Throughout this period, Commander Welte will be Deputy Director and will be the person with whom any special problems should be discussed.

2. Captain Wev offered his services, as long as he was here, in connection with liaison problems with the Department of Justice which might arise in connection with the 100-alien problem. He pointed out the difficulties encountered in establishing his office and the unsatisfactory liaison arrangements which were put into effect and which called for prior action by the Justice Internal Security Section and FBI for action on any one of his cases. He heartily agreed that we should avoid such a set up and should try to channel all our problems through Immigration and Naturalization to the Attorney General.
